SUMMARY

Frontend Developer fresher with internship experience and exposure to backend development. Experienced in building interactive user interfaces and integrating them with backend services. Quick learner with strong problem-solving skills and a passion for web technologies.[click here](#).

WORK EXPERIENCE

Intern

Jan 2026- present

Enthusiastic Frontend Developer intern at Nirmaan Organization, with hands-on training in frontend development, Java programming, and testing methodologies. Strong foundation in web technologies and a keen interest in developing reliable and user-friendly applications.

PROJECTS

Personal Portfolio Website

[Link to Demo](#)

Personal Portfolio Website – Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript. Showcased projects, technical skills, and professional information through a clean and modern UI. Implemented responsive design and cross-browser compatibility for better user experience. Deployed the website to demonstrate frontend development and web design skills..

AI Integrated Recruitment and Campus Placement Management

[Link to Demo](#)

AI-Integrated Recruitment and Campus Placement Management System – Developed a web application to automate campus placements and recruitment using AI-based candidate screening, responsive frontend design, Java backend logic, and manual testing techniques.
